Decorations on the nail files are made with SWAROVSKI or Czech bohemian crystals.

Nail files made of Czech glass, are double quenched by a special, secret technology to a gentle abrasive surface to ensure that your nails become stronger and cease to stratify.

Life long lasting, the surface for nail polishing can't ever be used up simply because it is the micro-relief of the nail file itself, like diamonds they are forever.

Completely safe, the edge of our nail files are polished by hand, eliminating the possibility of cuts, a pleasure to hold. Furthermore, unlike metal nail files they do not damage your nail plate.

Extended functionality, our files can be used for manicure, pedicure, hard skin removal, gift, souvenir, promotional item this is not near to a complete list.

Our company specializes in wholesale of souvenirs, gifts and cosmetics. Our warehouse operates in Prague. As we are located in center of Europe, this allows us to successfully integrate and distribute the products. Our main part of the export goes to retailers, we have a big experience in consulting, sampling and performing a retail product for a consequent or promotional sale. Our team is always happy to serve with anything from packaging as boxes or blisters, to a final design and production samples. Sourcing is in scope of our services, so if you have any idea in your mind – we can bring this idea to a reality.
